C. Amendment to Building Code related to electron message signs.

Summary: The proposed amendment adding Section 8-10-8E to the Building Code will allow for the installation of electronic message signs. Electronic message signs will be permitted only on signs owned or operated by local governmental entities or regional governmental authorities (Pace, Metra, etc.). The proposed ordinance also restricts the amount of sign face to be approved for the electronic message area; the sign must be a ground or monument sign, and set back to be a minimum of five feet from any property line.

Director Peterson commented that Section 2 of the proposed ordinance was adjusted to include a definition. He mentioned that the Library would be the first to have an electronic sign but that Paulus Park could benefit from one in the future. Mary Beth Campe, Ela Area Library Director, answered the Trustee's questions about the proposed sign and committed to work with the board on making adjustments as needed.

Trustee Halen asked why this ordinance focused only on government bodies and not on commercial. Director Peterson said that his department planned to spend considerable time reviewing the ordinances next year after including the project in the budget.
