Plan Highlights

Review this summary information to understand how your 457 Deferred Compensation Plan works.

ENROLLMENT

Simply complete the enclosed enrollment form and submit it to your employer. Participating in a retirement plan, such as your 457 plan, can have a significant positive impact on your future. Your plan offers the ability to enroll electronically.

To enroll online, please read the enclosed online enrollment instructions.

CONTRIBUTIONS

You decide the amount you wish to contribute each pay period to your retirement plan.

- You can change your contribution amount at any time. When you submit a change, it will take effect the following calendar month, as required by law.
- The maximum contribution for 2020 is \$19,500 (or \$26,000 if you are age 50 or older).
- You can elect to make pre-tax and/or Roth contributions to the plan.
- You may also transfer, or roll over, other eligible retirement accounts to your 457 plan.

Pre-Tax Contributions reduce your taxable income for the year. These amounts, along with associated earnings, will be taxed as ordinary income in the year they are withdrawn from your account.

Roth Contributions are made on an after-tax basis and do not reduce your taxable income for the year. However, Roth contributions and associated earnings can be withdrawn tax free if:

- five years have passed since January 1 of the year of your first Roth contribution, and
- you are at least 59½ years old (or disabled or deceased).

INVESTMENTS

Your contributions will be invested in the funds that you select, and the value of your account will fluctuate based on the performance of the funds. Carefully review information relating to your investment options before making your selections. For a list of investment options available to your plan, go to www.icmarc.org/fundinfo. You can make changes to your investments at any time.

WITHDRAWALS

After you separate from service with your employer, you will be eligible to withdraw your money at any time. However, you will not be required to take any withdrawals until after age 70½ (if you were born before July 1, 1949) or age 72 (if you were born after June 30, 1949) .

While you are still employed, your withdrawal options are limited to the following circumstances:

- After you attain age 70½ .
- Small account balance distributions. If your balance is under \$5,000 and no contributions have been made for a period of two years.
- Emergency withdrawals. Under certain emergency situations, as defined by the IRS.

LOANS

Your plan allows you to borrow money from your account while you are still employed. The maximum loan amount is limited to half of your account balance or \$50,000, *whichever is less*. Additional information is available by contacting ICMA-RC.

SUMMARY DESCRIPTION The actual rules governing your plan are contained in state retirement laws and the federal tax code. This publication provides a summary of the federal rules, and is not a complete description of the law. If there are any conflicts between what is written in this publication and what is contained in the law, the applicable law will govern.

This plan introduction is designed to provide you with general plan information. If there is a conflict between the information in this summary and the Plan document, the Plan document will be the controlling document.

ACCOUNT INFORMATION

You can review your account information online by logging into your account at www.icmarc.org. Or, use ICMA-RC's self-service phone line at **800-669-7400**.

ENROLLING IN YOUR 457 DEFERRED COMPENSATION PLAN

Review this information to help guide your contribution and investment decisions.

DON'T DELAY – START SAVING NOW

Don't put off enrolling. Your 457 plan provides flexibility and control.

- Contribution amounts can be changed, stopped, restarted at any time. There are no minimum limits so you can start small while you determine your ideal savings rate.
- Investment options can be changed at any time.
- Beneficiary designations can be changed at any time.

CONTROL WHAT YOU CAN

Although you cannot predict how the financial markets will perform or future inflation, tax rates, or other economic conditions, you can control when you start saving for retirement.

And starting earlier can give you a huge advantage. View the preceding chart — by starting to save at, say, age 25 instead of age 40, you can save a lot less each pay period and save about the same amount over your lifetime but come out way ahead. Of course, regardless of your current age, it's never too late to start.

HOW MUCH TO CONTRIBUTE

The benefits you will receive from a pension or Social Security could go a long way to providing a comfortable retirement, but additional savings will likely be needed to help you live comfortably over a potentially long retirement.

- Visit www.icmarc.org/learn for a variety of resources designed to help you save.
- For a more in-depth and personalized recommendation, consider ICMA-RC's Guided Pathways® Advisory Services (www.icmarc.org/guidedpathways).
- Or, request an educational consultation with your ICMA-RC representative.

Contribute What You Can. Even small savings can really add up over time. In fact, starting out small, and then increasing how much you save by just a little each year could go a long way.

HOW TO INVEST

As you choose your investments, consider the following:

Determine your risk level — how much investment risk you need to consider taking, and are comfortable taking. Use this to help you decide the approximate percentage of your money that should be in stock funds vs. bond funds vs. lower-risk options such as stable value funds and money market funds.

Consider a level of risk that is most likely to allow you to meet your long-term goals but also that you can maintain, especially during rough stretches.

Be diversified. Own different types of investments. This does not ensure against losses, but can help you manage risk.

To help guide your risk and diversification decisions, see the following pages:

- Take a look at the historical risk and return of different mixes of stocks and bonds. Higher-risk options like stocks have provided higher returns but also much steeper losses during certain time periods. But even low-risk options still have risk; they will be more likely to lose money to inflation over time.
- Review the different investment options and services available to you.

Asset Allocation

Use the chart below to help guide your asset allocation decisions. It shows the performance of different stock and bond portfolios since 1926, including ranges of annual returns over one, five, and 10 year periods. (For example, 10 year periods run from 1926 to 1935, 1927 to 1936, and so on.) Notice the tradeoff between potential risk and reward.

Performance figures were calculated using historical returns of the Standard & Poor's 500 Index and U.S. Long-Term Government Bonds.

The past performance shown is no guarantee of future results.

AVAILABLE INVESTMENT OPTIONS

Consider the following options to help you build a diversified portfolio with an appropriate overall level of risk.

Simplify and diversify with one fund. Target funds invest in a variety of individual stock and bond funds and may be appropriate if you are looking to simplify your investment decisions while still being diversified. Consider a:

- Target-date fund with the year in the fund name that closely matches the year you expect to begin withdrawals. Target-date funds are designed to gradually reduce risk over time.
- Target-risk fund that has a defined range of risk that is not designed to be reduced over time.

Build your own investment portfolio. If you are comfortable picking and choosing from different funds, this option provides the most flexibility and control.

And ICMA-RC has tools to help — Asset Class Guidance and Fund Advice, part of our Guided Pathways® Advisory Services provide recommendations for you to follow.

ICMA-RC's Managed Accounts service provides professional account management through each stage of your career and in retirement, from building up your savings to drawing them down. Managed Accounts:

- Recommends how much you need to contribute to reach a comfortable retirement
- Selects and manages your investments for you based on your personal and financial situation
- Makes periodic updates to help keep you on track
- Helps you transition from building up your savings to drawing them down

Managed Accounts helps you take the guesswork and complication out of these very important saving, investing, planning, and withdrawal decisions. It provides a strategy for you to follow and then manages your account for you, saving you time and minimizing the likelihood that you overreact to market upturns and downturns.

You are charged an asset-based fee for these services.^{1,2,3} Once you have enrolled in your plan, you can decide to enroll in Managed Accounts at any time. To learn more, visit www.icmarc.org/guidedpathways. You may also use our secure and easy online enrollment process to enroll in your plan and select Managed Accounts as your investment option at the time of enrollment.

TAX ADVANTAGES

Let's say you are in the 25% federal income tax bracket, have a \$40,000 annual salary and determine you need to save 5% per paycheck, or \$77, for your future retirement.

When \$77 is saved pre-tax, it is not subject to tax until later when you withdraw, so it reduces your paycheck by only \$58. **Pre-tax contributions help you save.**

Investment earnings are tax-deferred so your account can grow for decades before being subject to tax.

Roth contributions. Your plan may allow you to also make after-tax Roth contributions — while you get no immediate tax benefit, future withdrawals including earnings may be *tax-free*.⁴ Visit www.icmarc.org.

¹ Underlying mutual fund expenses and plan administration fees still apply. Please consult the applicable disclosure materials for a description of these fees and expenses.

² Investment advice and analysis tools are offered to participants through ICMA-RC, a federally registered investment adviser. Investment advice is the result of methodologies developed, maintained and overseen by the Independent Financial Expert, Morningstar Investment Management LLC. Morningstar Investment Management LLC is a registered investment advisor and subsidiary of Morningstar, Inc. Morningstar, Inc. and Morningstar Investment Management LLC are not affiliated with ICMA-RC. All rights reserved. The Morningstar name and logo are registered marks of Morningstar, Inc.

³ Managed Accounts is not suitable for all investors. Please contact our Guided Pathways® team or your ICMA-RC Retirement Plan Specialist and fully read the ICMA-RC Guided Pathways® Fund Advice and Managed Accounts Investment Advisory Agreement prior to enrolling in Managed Accounts to determine if this service is right for you.

⁴ Withdrawals will be tax-free if five years have passed since January 1 of the year of the first Roth contribution and if you are at least 59 1/2 (or disabled or deceased).

Periodically review your retirement strategy to determine if you should adjust how much you are saving and your investments. Do so about once a year or anytime you experience a major life change.

WHO TO DESIGNATE AS YOUR BENEFICIARY

It is important to designate the individuals who will receive your retirement account assets after you die.

Designating beneficiaries overrides your Last Will and Testament. If you choose beneficiaries:

- Your assets will be paid out according to your wishes and will not be subject to the potential costs and delays of probate, as well as creditor claims.
- Your beneficiaries may receive more tax advantages.
