

## 2025 HYDRANT FLUSHING SCHEDULE

The Village of Lake Zurich's annual hydrant flushing program is scheduled from Monday, April 14, 2025 through Friday, May 2, 2025. Hydrants are flushed once a year to flush out accumulated sediments, assure that the hydrants are in proper working order, and ensure water quality. Flushing is generally conducted between the hours of 7:00 a.m. and 3:30 p.m. but weather or unforeseen circumstances may result in changes to this schedule.

**Although the temporary discoloration in your tap water is not harmful, it may reoccur more than once during the program schedule.** We encourage you to check for possible discoloration prior to use and recommend temporarily postponing laundry to evenings or weekends to prevent staining. If your clothing should become stained, the Village offers rust-removing detergent, **which must be used before the clothes are dried.** This free detergent can be obtained at the Village Hall, 70 E. Main Street.
